British Engineering at it's Best

Part of the Hudson range, the Dorchester is the first British manufactured lift chair to feature a 10" powered headrest, powered lumbar support, independent dual motors which are controlled via a simplistic control system.

Find your perfect position with the Dorchester's soft seating system which has been hand padded to ensure additional comfort and support.

Classical Detail

The unique Dorchester has been hand crafted in the UK to inspire a traditional design with a modern twist. With a generously filled waterfall or lateral back cushion and an exquisite seat base, the Dorchester has been designed to feature maximum comfort and limitless functions.
